Methodology Overview

- The index is derived from the constituents of the BSE 100. The inclusion of DVRs in the index will result in more than 30 stocks in the index. However, the number of companies in the index remains fixed at 30.
- • Stocks must have a listing history of at least six months at BSE and must have a derivative contract.
- • The stock must have traded on every trading day at BSE during the six-month reference period.

All information presented prior to Index launch date is back tested. Back tested performance is not actual performance but is hypothetical. The back-test calculations are based on the same metho dology that was in effect on the index Launch Date. However, when creating back-tested history for certain periods, index methodology rules may be relaxed to capture a large enough universe of securities to simulate the target market that the index is des igned to measure. Relaxation in rules may include but are not limited to changes to Stock inclusion criteria, buffer rules, capping and number of constituents. Past performance of an Index is no indication of future results. The BSE Indices (the "Indices") are published by BSE Index Services Private Limited (BISPL), (formerly Asia Index Pvt.
